Notice regarding legal tender of Victoria notes.

For *the notice*, January 16, 1936.
(S.O. No. 15, 16, Finance (Legal and Banking).
No. 4.

The following notice issued by the Government of India is published for general information:—

VICTORIA NOTES.

There appears to be a widespread misapprehension that Victoria notes, i.e., notes issued in the name of Queen Victoria and bearing her effigy, are not legal tender and are not accepted at taxation and sub-taxation. These notes have never been and continue to be legal tender and the public are informed that they may present any Victoria note about which they are in doubt at any branch of the Imperial Bank of India Government Treasury Agents, at all any branch of a Treasury and presented their own funds) it is possible and there are no difficulties involved they will be accepted at that bank (any value without restrictions or deduction on account of light weight).

- (d) Clinical instruction for not less than one month in a children's out-patient department.

From such dates after passing of clinical clerkship in the wards and out-patient department as may be determined by the medical authorities of the hospital, the student shall be appointed to attend a recognized hospital in which at least two months shall be in the final year.

(e) Lectures or discussions on clinical medicine and attendance as general assistant or out-patient position during at least two years which may run concurrently with the surgical studies.

- (f) Instruction in therapeutics and poisoning including—
 - (1) Methods of treatment by venous and ure.
 - (2) Pharmacology.
 - (3) Dietetics.
 - (4) Principles of nursing.

(g) Instruction in Applied Anatomy and Physiology throughout the period of clinical study.

(h) Instruction throughout the period of medical clerkship in clinical Pathology.

30. Every candidate for the M.B.B.S. degree shall also attend recognized sources of instruction in the following subjects—

(1) Infectious diseases with attendance as clinical clerk of a recognized hospital on two days in the week for a period of three months.

(2) Diseases of Infancy and Childhood.

(3) Pathological anatomy with attendance as clinical clerk in a recognized hospital for medical diseases on one day in the week for a period of three months.

(4) Diseases of the skin including leprosy with attendance at the special department on two days in the week for a period of three months.

(5) Theory and practice of vaccination by a qualified Health Officer.

(6) Pathology and Electro-therapeutics in their application to Medicine.

Throughout the whole period of study the attention of the student should be directed by the teachers of each subject to the importance of its preventive aspects.

31. The instruction in Medicine may include questions on the pharmacological subjects but special examination in these subjects will not be held.

25. The course in Surgery shall include:-

- (1) apprenticeship for some months as surgical dresser in the surgical wards of a recognized hospital or which is the best equivalent.

(2) Apprenticeship for three months as surgical dresser in the out-patients Department of a recognized hospital.

Note.—Each student shall be present at hospital duty in the out-patients department for a minimum of six months in order to be eligible for the final M.B.B.S. degree and during the period of absence he is considered as having no time for his studies.

26. Every candidate for the Final M.B.B.S. degree shall also attend recognized courses of instruction in the following subjects:-

- (1) A course of systematic instruction in the principles and practice of Surgery.
- (2) Lectures and demonstrations in clinical surgery and attendance at general outpatient and out-patient practice during at least two years which may run concurrently with the medical practice.

(3) Practical instruction in surgical methods including physiotherapy.

(4) Practical instruction in minor surgery as the laity.

(5) Instruction in the administration of anaesthetics.

(6) A course of instruction in operative surgery.

(7) Instruction in Applied Anatomy and Physiology throughout the period of clinical studies.

(8) Instruction throughout the period of surgical dressmaking in Clinical Pathology.

27. Instruction in diseases of the Ear, Nose and Throat including the use of otoscope, laryngoscope and rhinoscope with attendance at clinical wards of a recognized clinic or three days in the ward for a period of three months.

(9) Pathology and electro-diagnosis in their application to Surgery.

(10) Venereal diseases with attendance at a venereal clinic for two days in the ward for a period of two months.

(11) Orthopaedics with attendance at a recognized clinic or two days in the ward for a period of three months.

(12) Dental diseases.

(13) Surgical diseases of infancy and childhood.

28. The instruction in Surgery may include questions on the above-mentioned subjects but separate examinations in these subjects will not be held.

Throughout the whole period of study the attention of the student should be directed by the teachers of the subject to the experience of its primitive aspect.

29. The course of study in Obstetrics and Gynaecology shall include:-

- (1) A course of systematic instruction in the principles and practice of Obstetrics and Gynaecology and Infant Hygiene including Applied Anatomy and Physiology of pregnancy and labour.

(2) Lectures and demonstrations in Clinical Midwifery, Gynaecology, Infant Hygiene and attendance on the clinical of out-patient hospital or the out-patient wards of a general hospital including at least two, (3) management of the puerperium and (4) in patient and out-patient gynaecological practice for a period of at least three months.

Note.—The period during the period of instruction in these subjects will be at least two days in the out-patient hospital and (3) management of the puerperium and (4) in patient and out-patient gynaecological practice for a period of at least three months.

(3) Of the period of clinical instruction not less than one month should be spent as a student pupil either in a maternity hospital or in a hospital attached to a maternity hospital or in the maternity ward of a general hospital. The candidate should during the month spend at least 25 cases of labour under adequate supervision. Should the number of cases attended during the month be less than 25, the candidate should be attended as soon as possible thereafter.

31. A certificate during the tenure of time attended by the candidate in the maternity hospital or in the out-patient ward of a general hospital should be issued by a responsible medical officer on the staff of the hospital and should state (1) that the candidate has personally attended such case during the course of labour making the necessary anatomical and other examinations under the supervision of the attending medical officer and (2) that satisfactory written records of the cases attended by the candidate were presented to the supervising officer and authenticated by him.

32. The course of study in Ophthalmology shall include: Systematic lectures in Ophthalmology with attendance at an Ophthalmic hospital or Ophthalmic wards of a general hospital or three days in the ward for a period of three months and shall include instruction in the use of Ophthalmology.

33. The course of instruction in Pathology and Bacteriology shall be given throughout the period of clinical study and shall include:-

- (1) General and special Pathology and medical Anatomy.
- (2) Clinical and chemical Pathology.

- (7) Elementary general Bacteriology and Parasitology.
 (8) Clinical Bacteriology and Parasitology.
 (9) Immunology and Hygiene.

Admission to examination.

30. No candidate shall be admitted to First M.B.B.S. examination unless he—

(a) he has passed the First M.B.B.S. examination or an examination accepted by the Faculty as equivalent thereto not less than three calendar years previously;

(b) he has passed the Second M.B.B.S. examination or an examination accepted by the Faculty as equivalent thereto not less than one year previously;

(c) he has been registered in Medical Studies at the Andrew University for not less than two calendar years immediately preceding the examination; and

(d) he has produced the prescribed certificate.

31. Before admission to the First M.B.B.S. examination, candidates shall present evidence of having satisfactorily attended the courses in the institutions of the kind of the college.

32. The subjects on which the candidates will be examined are as follows—

(A) *Anatomy.*

The examination shall consist of—

Two written papers each of two hours' duration.

Oral examination consisting of the following—

(i) Examination of a specimen and a report (written) thereon extending to at least one hour.

(ii) Short examination of two patients extending to at least half-an-hour.

Practical and Oral examinations.

(B) *Surgery.*

The examination shall consist of—

Two written papers, each of two hours' duration.

Oral examination consisting of—

(i) Examination of a specimen and a report (written) thereon extending to at least one hour.

(ii) Short examination of not less than two cases.

Practical and Oral examinations bearing on Surgical Anatomy and Pathology.

Use of surgical appliances.

Operations on the cadaver.

(C) *Obstetrics and Gynaecology.*

The examination shall consist of—

One written paper of three hours' duration.

Clinical, Practical and Oral examinations.

(D) *Ophthalmology.*

The examination shall consist of—

One written paper of three hours' duration.

Clinical, Practical and Oral examinations.

(E) *Pathology and Bacteriology.*

The examination shall consist of—

One written paper of three hours' duration.

Practical examination and Oral examinations.

Examination of the work.

33. A candidate shall be declared to have passed the Pathology and Bacteriology examination if he obtains not less than seventy of the marks in the written part and not less than one-third of the marks in the practical and oral taken together.

In Medicine, or Surgery, or Ophthalmology and in Bacteriology no candidate shall be allowed to pass who fails to obtain fifty per cent. in the written assigned to the whole examination or that subject or who fails to obtain a fifty per cent. of the aggregate marks assigned to the Clinical Examination or who fails to obtain forty per cent. (40 per cent.) of the aggregate assigned to the written, practical and oral examinations.

They shall not be declared to have passed the whole examination until they have passed in all the subjects of the examination.

Exemption from re-examination.

34. Candidates who have appeared for the First M.B.B.S. examination either in part or whole shall be exempted from appearing in the subjects in subjects in which they have passed and they may re-examine the said examination at a subsequent session or sessions by appearing in the subject or subjects in which they have failed, provided however that they pass in all the subjects within a period of two calendar years or in four consecutive examinations including the last appearance.

Candidates who do not avail themselves of any exemption must also complete the examination within a period of two years from the date of first appearance.

Candidates who fail to complete the whole examination within the above limit of two years or four consecutive examinations shall be required to appear again for all the subjects of the First M.B.B.S. examination.

In the event of each period of two years or four consecutive examinations another period of the same duration will be applicable as regards the exemption in passing the examinations.

Representatives to the association during the period of two years shall be elected in a ballot to give the consent for purposes of this Regulation.

20. Candidates who pass the whole examination in the first examination of chemistry should be ranked in the order of percentage marks, as determined by the total number of marks obtained by each in all subjects and shall be arranged in two classes: (a) the number of those who have obtained not less than seventy per cent of the aggregate number of marks, the second consisting of all the others.

Candidates who pass in the first class and who obtain not less than seventy-five per cent of the marks in any subject shall be deemed to have passed with distinction in that subject.

Candidates who pass the examination as a subsequent applicant shall be ranked only in the second class.

All candidates who pass the examination subject by subject shall be ranked in the second class separately.

21. University Regulations—

(1) The Regulations in force prior to 1st July 1938 will continue to be in force for the benefit of candidates who obtained their degrees under those regulations.

(2) Candidates, who had completed their course in Pharmacology before June 1938, but did not appear for the June 1938, and be permitted to appear for the examination subject further verification of attendance at College.

(3) Candidates for the B.Sc.B. Degree who had qualified for the B.Sc. Degree after a five years' course, shall be exempted from registration in the subject in which they had obtained 50 per cent of the marks and from the production of the required laboratory certificate in other subjects.

(4) The Regulations printed in Volume I of the Medical University Calendar for 1937-38, relating to courses of study and examinations for the B.Sc. Degree shall remain in force for the benefit of candidates who have entered upon their course of study prior to July 1938, subject to such alterations in the curricula of studies corresponding to those made in the Regulations for the B.Sc.B. Degree in conformity with the recommendations of the General Medical Council of Great Britain as issued in (a) the intercession of three years between the date of passing preclinical examination in anatomy and physiology and that of entrance in the Final Examination in Medicine (Theory and Medicine) and (b) intercession in Biochemistry and Acute Medicine Courses.

* Syllabus.

PORT ST. GEORGE EXAMINATION

CHEMISTRY COURSE.

Methods of purifying organic compounds. Detection and the separation of the acid-base elements of organic compounds. Preparation of empirical formulae. Isomerism of aliphatic compounds. Structural formulae and isomerism. The nomenclature and the characteristic reactions of aliphatic compounds as illustrated by the groups paraffin, olefin, and aromatic hydrocarbons, alcohols, aldehydes, ketones, amines, nitro compounds, esters, acids, ethers, and oxides. Spectra and physical properties. Stereoisomerism, optical and rotatory activity. Properties, tests and uses of organic acids including the aliphatic, aromatic, and heterocyclic acids. Properties, tests and uses of organic bases including the aliphatic, aromatic, and heterocyclic bases. Properties, tests and uses of organic salts including the use of sodium-salts.

The following hydrocarbons are illustrated by benzene and toluene. Radical reactions. Nitro compounds. Amino compounds including an elementary study of the diazo reaction. Indole, naphthalene, phenol, formaldehyde, monohydric, polyhydric alcohols, ethers, aldehydes and ketones, acids, and their important derivatives. Aromatic, alicyclic and heterocyclic compounds.

Elementary study of carbohydrates, alcohols and aldehydes and their important derivatives. Alcohols, aldehydes, their classification, structure, and general properties. An elementary study of the important members of the alcohols, aldehydes, ketones and the isomeric groups. Simple alcohols, and aldehydes. Phenols and pyridines.

List of Practical Exercises.

1. Detection of elements in an organic compound.—Carbon, hydrogen and nitrogen.
2. Detection of alcohols, aldehydes and ketones.
3. Detection of hydrocarbons—aromatic, aliphatic, heterocyclic, naphthalene and anthracene.
4. Preparation of alcohols and the study of the properties of alcohols, aldehydes and ketones.
5. Preparation of aldehydes, alcohols, ketones and heterocyclic compounds, aldehydes, ketones, alcohols, and heterocyclic compounds.

* The Practical Examination Regulations, and the syllabus under Chapter IV of the Code, give the full details of the examination in the subject of Chemistry. Details of the examination in the subject of Chemistry are given in the Code, Chapter IV, and the syllabus under Chapter IV of the Code, Chapter IV, and the syllabus under Chapter IV of the Code, Chapter IV.

- 6 Structure of acids—Monocarboxylic—Formic acid, acetic acid, benzoic acid, lactic acid, and adipic acid.
- 7 Reactions of dicarboxylic acids, Oxalic acid, succinic acid, Phthalic acid.
- 8 Structure of esters and ethers—Ethyl acetate. Ethyl n-octanoate, ethyl benzoate, methyl salicylate, nitro.
- 9 Reactions of amines and azides. Aniline, Methyl aniline—diazotization, azobenzene.
- 10 Reactions of alcohols.
- 11 Alcohols.
- 12 Acids—Glycerol.

 - B. Cardiac elevator used.
10. Amphibian—Demonstration of the properties of cardiac muscle—
 - (a) Experimental section.
 - The all or nothing phenomenon.
 - The refractory period.
11. (Heart.) Refractory period in beating heart, and in quiescent heart.
12. Function of the frog's heart and demonstrating the action of salts.
13. Perfusion of the frog's heart demonstrating the action of drugs.
14. Action of vagus on the frog's heart and demonstrating the effect of atropine and nicotine.

Respiratory system.

15. Trachea—Respiratory efficiency tests—
 - (a) Vocal apparatus.
 - (b) Muscular tests.
 - (c) Expiration of carbonic acids.
 - (d) Artificial respiration.
16. A. Analysis of expired air and
 - B. Determination of R.Q. at rest and in exercise.
17. Estimation of carbon dioxide in expired air.
18. Respiration—Estimation of alveolar reserve by estimating the carbon dioxide combining power of plasma.
19. Obtaining the decussation curve of apnoeograph.

Muscle

20. Amphibian—The effect of after-healing and loading of muscle and estimation of mechanical work.
21. Fatigue including neuromuscular fatigue in man.
22. Demonstration of reciprocal innervation of antagonistic muscles.
23. Spinal nerves—
 - A. Electric stimulation of nerves in a man.
 - Reflex action.
24. Frog—
 - A. Decussation frog.
 - B. Spinal frog.
25. Reflex—Demonstration of reflex in man—
 - A. Superficial.
 - B. Deep.
26. Spinal nerves—
 - A. Division of spinal (Cervical) cord.
 - B. Demonstration of changes in the knee during neuromuscular (Phonograph).
 - C. Use of optokinetic.
27. A. Determination of field of vision, for ordinary light and colours—
 - B. Test for colour vision.
 - C. Tests for hearing. Winkler's diagram.
28. Skin reactions—
 - A. Light touch.
 - B. Heavy touch.
 - C. Tactile localization and discrimination.
 - D. Heat and cold.

List of Experiments for demonstration.

1. Demonstration of the action of reflex. Goltz's experiment.
2. Posterior vagus in heart. Capillary electrometer.
3. Perfusion of mammalian heart, and demonstrating the influence of temperature and the action of drugs.
4. Demonstration of the cardiac output in mammalian heart.
5. Irritation of mammalian heart.
6. Section of A.V. bundle.
7. Perfusion of rabbit's ear, and demonstrating the action of drugs.
8. Securing the arterial pressure in mammals and demonstrating the effect of—
 - (a) Vagal and sympathetic stimulation.
 - (b) Drugs.
 - (c) Reflexes.
9. Velocity of arterial blood flow in mammals.
10. Demonstration of electrocardiograph in the frog.
11. Experiments of strength and posture in mammals.
12. Performance and Wiggler's Law.
13. Stimulation of sensory and posterior nerve roots in mammals.
14. Central locomotion.

Bio-Chemistry.

A. Applied System Chemistry: Chemistry of proteins, fats and carbohydrates and various compounds—

(a) Examples: Elementary composition, General properties and reactions: structure, amino acids, Analysis and characterization of proteins and pyridoxine.

(b) Five Examples: Classification: Simple lipids and associated lipids, their structure, reactions and physiological importance. Carbohydrates, the structure, reactions and metabolism. Physiological and clinical importance: Diabetes in other words, its acids, and hormones, etc.

(c) Carbohydrates, Monosaccharides, Disaccharides and polysaccharides.

B. Chemistry of digestion of food

Digestion in the mouth, stomach and intestine. Gastric analysis and its clinical application. Pancreatic juice. Bile. Via the large intestine, faeces excretion.

C. General decomposition of food in the intestine. Formation of food from food. Fermentation. Bacteria and antibiotic substances. Intoxication.

Metabolism of proteins: Fate of absorbed amino-acids. Synthetic reactions. Catabolism reactions. Leucine and their reactions. Five examples: (a) Protein synthesis, its origin and significance. (b) Catabolism and reactions. (c) Protein synthesis and metabolism. Importance in Physiology and Medicine. (d) Metabolism of carbohydrates. (e) Metabolism of fats. Role of the Liver. Fatty acid metabolism in the body. Ketogenesis and ketonuria.

Metabolism of carbohydrates: Storage and utilization of sugar: Endocrine control. Carbohydrate metabolism during muscular contraction. Blood sugar and its regulation. Glucose tolerance test and its use in clinical medicine. Hypoglycaemia, hyperglycaemia and diabetes. Diabetes mellitus.

Energy metabolism. Heat metabolism. Effect of food and work on metabolism. Metabolism during starvation.

Metabolism: Nitrogen metabolism and protein metabolism. Biological value of proteins. Energy requirements: metabolism of fats and carbohydrates. Mineral metabolism: metabolism of calcium, phosphorus, magnesium, iron, chlorine, sodium and their requirements.

Chemistry of blood: Hemoglobin and its derivatives. Plasma proteins.

Other constituents of plasma and coagulants. Acid-base equilibrium.

Chemistry of respiration: Transport of oxygen and carbon dioxide.

Calculation and reduction in the tissues. Tissue respiration. Chemistry of respiration. Carotid body. Carotid sinus. Chemoreceptors and chemical protection of the body against nitrogen metabolism.

Protein Bio-Chemistry.

Experiments on the properties and reactions of proteins, fats and carbohydrates.

Composition of some common proteins, especially an albumin and gelatin. Digestion: Analysis of gastric contents following a test meal. Estimation of urea. Blood. Hemoglobin, synthesis of red blood corpuscles. Hemoglobin and its derivatives. Spectrophotometric estimation of hemoglobin. Clinical tests for blood. Thrombin and fibrinogenase. Thrombin. Hemoglobin crystals.

Living—Chemistry of normal urine. Estimation of urea for normal clinical conditions.

Identification of various substances of physiological importance.

Quantitative analysis: Estimation of common sugar by any simple method.

Qualitative determination of some of the important constituents of blood.

Urea, creatinine, creatin, nitrogen, nitrogen, urea and urea derivatives.

Estimation of urea, creatinine and phosphorus in urine, blood, saliva and excreta.

Elementary normal psychology. Introduction to Pathology and Pharmacology and introduction to Toxicology. The influence of Biology, Psychology of Psychology and the Science of Pharmacology respectively will deal with the above subjects in a very elementary manner in not more than one month. Lectures and Demonstrations for each subject. There are continuously in progress over the second part of study.

Elements of the methods of elated examination, including the use of various instruments (microscope, ultramicroscope, etc.) and examination of the body fluids, with illustrations of the several methods of elated examination, will be taught by the President of Physiology, Bio-Chemistry and Medicine.

In Chapter LII (Time-Tables) of the Code, Volume II (1925-26), page 67, will be the following immediately above the M.D. degree examination:

In Chapter XVII, section 2 (Certificate), insert the following as page 616 of the Code, Volume II (1938-42) immediately above 12. Clinical Life Examination and renumber the present sections 12 and 13 as 15 and 17—

CERTIFICATE.

*(Under Medical Registration.)

IN PORT ST. GEORGE REGISTRATION.

I certify that to the best of my knowledge and belief considered the age of previous years as or before the date of admission to the Medical College, Georgetown, that he has been a student in medical studies of the Medical College, Georgetown, for not less than six months prior to his entering the Registration Examination, and that his progress and conduct have been satisfactory.

(Signature)

Principal.

20 .

I certify that he has attended a course of lectures on Organic Chemistry and a course of instruction in Practical Organic Chemistry.

(Signature)

Professor of Chemistry.

18 .

I certify that he has been engaged in medical studies for two consecutive years subsequent to his passing the Pre-Registration Examination, and that his progress and conduct have been satisfactory.

(Signature)

Principal.

16 .

* The application for the Pre-Registration examination will continue to be accepted under the Old Regulations.

I certify that _____ has attended a course of instruction in Anatomy including Dissection of Human Dissections, Theoretical and Practical.

(Signature)

Professor of Anatomy

20 .

I certify that _____ has dissected for 100 periods each period being a dissection of three hours during the regular sessions and has completed the dissection of the human body

(Signature)

Professor of Anatomy

11 .

I certify that _____ has attended a course of lectures in Physiology and a course of instruction in Practical Physiology including Histology

(Signature)

Professor of Physiology

10 .

I certify that _____ has attended a course of lectures in Bio-Chemistry and Bio-Physics and course of instruction in practical Chemical Physiology and Bio-Chemistry and Bio-Physics.

(Signature)

Professor of Physiology

10 .

I certify that _____ has attended a course of lectures in Pharmacology and a course of instruction in Practical Pharmacology.

(Signature)

Professor of Pharmacology

10 .

Additional Certificates.

I certify that _____ has been re-engaged in medical studies for the First M.B.B.S. Examination for a period of one term subsequent to his appearance at that examination in _____ when he was referred to his studies by the Examiners and that his progress and conduct have been satisfactory.

(Signature)

Principal

10 .

RE-ENTRY EX-AMINO DOCTOR EXAMINATION

I certify that _____ has been engaged in medical studies at the Medical College, Singapore, for not less than one academic year for Pharmacology, Physics and Forensic Medicine also passing the First M.B.B.S. Examination, and that his progress and conduct have been satisfactory.

(Signature)

Principal of the College

10 .

I certify that _____ has attended a course of lectures in Pharmacology and a course of instruction in Practical Pharmacology.

(Signature)

Professor of Pharmacology

10 .

I certify that _____ has attended a course of lectures in Hygiene and a course of instruction in practical Hygiene.

(Signature)

Professor of Hygiene

10 .

I certify that _____ has attended a course of instruction in Forensic Medicine including demonstrations.

(Signature)

Professor of Medicine

10 .

Additional Certificates

I certify that _____ has been engaged in medical studies for the Second M.B.B.S. Examination for a period of one year subsequent to his appearance at that examination in _____ when he was referred to his studies by the Examiners and that his progress and conduct have been satisfactory.

(Signature)

10 .

Principal, Medical College.

10. THIRAM MURUGU SWAMY RAMANUSWAMY

I certify that _____ has been engaged in medical studies at the Medical College, Vellore, for not less than one year after passing the First M.B.B.S. Examination and that his progress and conduct have been satisfactory.

(Signature)

10 .

Principal, Medical College.

I certify that _____ has been engaged in medical studies at the Medical College, Vellore, for not less than three academic years after passing the First M.B.B.S. Examination and that his progress and conduct have been satisfactory.

(Signature)

10 .

Principal, Medical College.

I certify that _____ has attended a course of instruction in the Medicine including Therapeutics.

(Signature)

10 .

Professor of Medicine.

I certify that _____ has been engaged as clinical clerk in the Medical wards of a recognized hospital for a period of nine months.

(Signature)

10 .

Physician, _____ Hospital.

I certify that _____ has been engaged as clinical clerk in the Medical Outpatients Department of a recognized hospital for a period of three months.

(Signature)

10 .

Medical Officer, _____ Hospital.

I certify that _____ has been engaged as clinical clerkship for not less than one month in a Children's Outpatients Department.

(Signature)

10 .

Medical Officer _____

I certify that _____ has attended a recognized course of instruction in Infectious Diseases.

(Signature)

10 .

Professor of Medicine.

I certify that _____ has attended as clinical clerk in a recognized hospital for Infectious Diseases on two days in the week for a period of three months.

(Signature)

10 .

Medical Officer, Hospital for Infectious Diseases.

I certify that _____ has attended a recognized course of instruction in PhysioPathology and Mental Diseases.

(Signature)

10 .

Professor of Mental Diseases.

*The date of the Examination should be noted here.

I certify that _____ has attended as clinical clerk in a recognized Medical Hospital on one day in the week for a period of three months.
(Signature) _____
Superintendent, Hospital for Mental Diseases

19 .

I certify that _____ has attended a recognized course of instruction in Pathology.
(Signature) _____
Professor of Medicine

20 .

I certify that _____ has attended as clinical clerk in a recognized Hospital on one day in the week for a period of three months.
(Signature) _____
Medical Officer, Tuberculosis Hospital.

21 .

I certify that _____ has attended a recognized course of instruction in Dermatology.
(Signature) _____
Professor.

22 .

I certify that _____ has attended the special department relating to skin diseases on one day in the week for a period of three months.
(Signature) _____
Medical Officer, Hospital.

23 .

I certify that _____ has attended a recognized course of instruction in vaccination by a qualified Health Officer.
(Signature) _____
Health Officer.

24 .

I certify that _____ has attended a recognized course of instruction in Radiology and Electro-therapy in their application to Medicine.
(Signature) _____
Radiologist.

25 .

I certify that _____ has attended a recognized course of instruction in Children's Diseases
(Signature) _____
Professor.

26 .

I certify that _____ has attended a course of instruction in Surgery.
(Signature) _____
Professor of Surgery

27 .

I certify that _____ has been engaged as a surgical dresser in the surgical wards of a recognized hospital for a period of nine months.
(Signature) _____
Surgeon, Hospital.

28 .

I certify that _____ has been engaged as a surgical dresser in the Out-patient Department of a recognized hospital for a period of three months.
(Signature) _____
Surgeon, Hospital.

29 .

I certify that _____ has attended (1) a recognized course of instruction including demonstrations in Clinical Surgery, and (2) General assistant and collection duties during at least two years.
(Signature) _____
Professor

30 .

I certify that _____ has attended a course of practical instruction in surgical Methods including Phlebotomy.

(Signature)

Professor

19 .

I certify that _____ has attended a course of practical instruction in minor Surgery as the living.

(Signature)

Professor

20 .

I certify that _____ has attended a course of practical instruction in applied Anatomy and Physiology throughout the period of clinical studies.

(Signature)

Professor of Surgery.

21 .

I certify that _____ has attended a course of instruction throughout the period of surgical dressings in clinical Pathology.

(Signature)

Professor

22 .

I certify that _____ has attended (1) a recognized course of instruction in diseases of the Eye, Nose and Throat including the use of otoscope, laryngoscope and rhinoscope and (2) a recognized course in clinical work on these days in the week for a period of three months.

(Signature)

Professor

23 .

I certify that _____ has attended (1) a recognized course of instruction in Otolaryngology and (2) a recognized course in the use of the laryngoscope and rhinoscope in the week for a period of three months.

(Signature)

Professor

24 .

I certify that _____ has attended a course of practical instruction in the administration of anaesthetics and has personally administered a general anaesthetic in at least one case.

(Signature)

Superintendent

25 .

I certify that _____ has attended a recognized course of instruction in Operative Surgery.

(Signature)

Professor of Operative Surgery.

26 .

I certify that _____ has attended (1) a recognized course of instruction in Pathology and (2) an electrocardiogram in their application in Surgery.

(Signature)

Pathologist.

27 .

I certify that _____ has attended (1) a recognized course of instruction in Vascular System and (2) a Venous clasp for two days in the week for a period of two months.

(Signature)

Professor

28 .

I certify that _____ has attended a recognized course of instruction in Dental Surgery (Class lectures and one practical demonstration) at the Dental Clinic.

(Signature)

Professor

29 .

I certify that _____ has attended a recognized course of instruction in surgical diseases of infancy and childhood.
(Signature) _____

Professor.

19.

I certify that _____ has attended a course of systematic instruction in the principles and practice of Midwifery and Gynaecology and in the hygiene including applied Anatomy and Physiology of pregnancy and labour.
(Signature) _____

Professor.

20.

I certify that _____ has attended (i) a course of lectures and demonstrations in clinical Midwifery and Gynaecology and in the hygiene and (ii) maternity hospital or the delivery wards of a general hospital including (iii) antenatal care and (iv) management of the parturient and (v) obstetrics and (vi) obstetric Gynaecological practice for a period of at least three months.
(Signature) _____

Professor of Obstetrics and Gynaecology.

21.

I certify that _____ during the period of clinical instruction, and for that one month has been paid as a resident pupil in a maternity hospital or a house attached to a maternity hospital or in the delivery ward of a general hospital, and that he has during this period conducted at least twenty cases of labour under my supervision.
(Signature) _____

Member of the staff of a Maternity Hospital or
Maternity Ward of a general hospital.

22.

I certify that _____ has personally attended such time during the course of labour making the necessary abdominal and other examinations under my supervision and that he has under his direct supervision conducted of the cases attended by him.
(Signature) _____

Professor.

23.

I certify that _____ has been engaged as clinical clerk in the Gynaecologic wards and Out-patient department of a recognized hospital for a period of three months.
(Signature) _____

Medical Officer, Hospital.

24.

I certify that _____ has attended (i) a course of systematic lectures in Ophthalmology including refraction and the use of Ophthalmoscopes and (ii) an Ophthalmic hospital or Ophthalmic clinic at a general hospital or the clinic days in the work for a period of three months.
(Signature) _____

Professor of Ophthalmology.

25.

I certify that _____ has attended a course of lectures on general Pathology and a course of instruction in practical Pathology.
(Signature) _____

Professor of Pathology.

26.

I certify that _____ has attended a course of lectures on Bacteriology and a course of instruction in practical Bacteriology.
(Signature) _____

Professor of Bacteriology.

27.

I certify that _____ (i) has received practical instruction in the conduct of autopsy and (ii) has been engaged as post-mortem clerk in at least ten cases.
(Signature) _____

Professor of Pathology.

1. In Chapter XXXVIII (Intermediate examinations), section 1 (page 292 of Volume II of the Code) read "An advanced language—Classical or a Modern Indian or English" for what stands at present by the 11.

2. Substituting—

"An advanced language" for "the Third Language" occurring in subsections 11, 12 and 13 in the Institute on page 292 as already.

"An advanced subject" and "Advanced Standard" for "Tamil" and "Sanskrit" occurring in the following subsections introduced by subsection No. 2 on page 292—

Telugu, Sanskrit, Indian History,
Tamil, Sanskrit, Logic
Telugu, Sanskrit, Music
Indian History, Sanskrit, Music

2. Insert the following subsections introduced by subsection No. 26 on page 292—

English, Indian History, Logic
Sanskrit, Indian History, Sanskrit History
English, Indian History, Sanskrit and Medical History.

4. In the same chapter, section 4, Part III (page 335) as amended by subsection No. 45, delete the paragraph as "Third Language" and the word "Second" in the reading of the paragraph as "Advanced Second Language" and substitute "Modern Indian Language" for "Tamil" occurring in line 4 of the same paragraph.

8. In the same chapter, subsection on page 341 as amended, substitute "Part III—Advanced Language" for the heading "Part III—Old & Third Language" and strike the word "Second" in the following—1. In line 1 in Telugu Grammar, Theory and Practice for Advanced Second Language occurring in line 1 of the same paragraph.

6. In Chapter XVI—Time-table regarding Intermediate examinations on page 313 as amended by subsections 45, 1, substitute the following for what stands at present: (Extracts and Remarks) give—

Date.	Item.	Notes.	Mark.

1. In Chapter XLV, substitute the following for the existing subsection under Part II of B.Sc. Honours Degree Examination—
6. Chemical Technology in the Main subject posted on page 211-41 of Code, Volume II (1935-36).

"(A) GENERAL CHEMICAL TECHNOLOGY.

"(General course: about 300 lectures)

Inorganic—Metallurgy of iron, copper, lead, nickel, zinc, tin, aluminium, silver, gold, platinum.

Manufacture of acids—Nitric, sulphuric, hydrofluoric and sulphuric acids.

Manufacture of alkali and soda—Sodium hydroxide, soda ash and other sodiums, potash and potassium sulphate, hydrochloric, phosphoric, peracetic, permanganic, phosphoric and magnesium sulphate, nitric acid and others.

Manufacture of more glass, brick, pottery, cement, plaster, lime, marble, slaked lime, gypsum, magnesite and raw soda.

Manufacture of industrial gases. Purification of nitrogen.

Deposits.—Electrolysis of coal and wood. Petroleum and coal tar products. Oxidants. Tarola flows, cellulose and paper. Sugars, starch, dextrin, amino acids, alcohol, glycerol, esters, resins and plastics. Taracis and liquid tars, oils, waxes, essential oils and drying oils. Fats and cereals. Drugs and some synthetic products.

Text-books.

1 Industrial Chemistry by Barger.

2 Industrial Chemistry, two volumes, by Allen Rogers.

Reference books.

1 Industrial Electro-Chemistry by C. L. Marvel.

2 Applied Electro-Chemistry by A. J. Almond.

(Reference course: about 200 hours.)

Analysis of water, soil, lubricants, alloys, fertilizers, fats and oils, paints, pigments and ceramics. Estimation of sulfides and heating materials.

Formulations.—Kratons, vulcanization, hydrogenation, synthesis, substitution and distribution. Reduction and hydroxylation (active forms).

Discussion of Case Ties.

Electrolysis and electrodeposition. Preparation and purification of some simple inorganic salts.

(C) CHEMICAL ENGINEERING.

(Reference course: about 300 lessons.)

1 **Transportation of solids, liquids and gases.**—Transportation of solids. Convection, diffusion, osmosis. Surface transportation. Transportation by road and water. Flow of fluids. Diffusion and conduction flow. Heat flow, flow of vapors, fluids, systems, liquids, gases, low to high pressure, different types of pumps and compressors, long distance transportation. Transportation of vapors, liquids.

2 **Heat transmission.**—Transmission of heat by radiation, convection and conduction, coefficient of heat transmission of various solids. Different types of heat exchangers and heat exchangers.

Frequency.—Different types of compressors, their working, principles and design, comparison of different liquids from various types of vapors.

Distillation.—Distillation under different pressures—various types of stills and rectification columns.

Drying.—Different types of driers, their principles of working and design. Humidification, dehumidification, air conditioning, water cooling, use of humidity chart.

Temperature measurement.—Thermometers, thermocouples, optical pyrometers.

Refrigeration.

3 **Process and heat.**—Calculation of heat in various, different types of systems. Flow of the products of combustion, heat efficiency, waste and losses.

4 **Process—drilling and grinding.**—Various types of systems, their principles of working and design. Power consumption, efficiency, etc.

Mechanical operations.—Dewatering, lifting, filtration, sedimentation, filtration, different types of filters, centrifuges, agitators.

Milling.—Different types of mills and screens, rolled mills, pellet mills, etc.

Extraction, etc.—Extraction, leaching, absorption, adsorption, crystallization.

5 **Methods of separation.**—Special reference to chemical and electro-chemical industries.

Metals.—Iron, ferrous alloys, nickel, copper, lead, zinc, aluminum, alloy, tin, phosphorus, brass, etc.

Nonmetals.—Phosphorus, silica, methanol, acids, cement, wood, chlorine, rubber, etc.

Text-books.

Elements of Chemical Engineering by Barger and Almond.

Reference books.

1 Handbook of Chemical Engineering, Volumes I and II by

D. M. Laidlaw.

2 Handbook of Chemical Engineering by Frank Turpin.

3 Principles of Chemical Engineering by T. H. Walker, W. E. Lewis and D. H. McIlwain.

(Reference course: about 300 hours.)

Cracking and refining, recovery. Transportation measurement, relative value of solid, liquid and gaseous fuels, flow of fluids. From low to high pressure, flow of fluids, determination of coefficient of heat transfer. Compression, distillation and condensation, plate efficiency, heating and crystallization.

30 SPECIAL SERVICES.

(5) Sugar Technology.

(Lecture course about 20 lectures)

General nature of the sugar plant and technology for the manufacture, purification, white sugar, adulteration of sugar and raw sugar industry.

Purification of juice from cane, milling and diffusion, composition of the juice, purification by crystallization, purification and solution processes, boiling of juice in syrup and the syrup is processed, curing of molasses in mass.

Elucidation of sugar, manufacture of white sugar from raw sugar and sugar.

Elucidation of sugar in various, laboratory routine work and chemical control of a raw sugar factory.

(Lecturing course about 10 hours)

Elucidation of sugar apparatus, processes, instrumentation, some new materials, chemicals, products and by-products of a raw sugar factory.

Text-books:-

1. The Handbook for Cane Sugar Manufacture and Cane Chemistry by Spencer and March.
2. Cane Sugar and its Manufacture by H. C. P. Gossage.

(6) Pharmacology.

(Lecture course about 10 lectures)

Crude drugs, their chemical composition and uses, history of the main principles of natural drugs. Chemistry of organic and inorganic substances in various uses in pharmacy. Synthetic drugs.

Pharmaceutical operations. The preparation of solid, gaseous, liquid and chemical preparations of pharmaceutical substances and their modification.

Text-books:-

1. Bailey and Brown's Textbook of Pharmaceutical Chemistry.
2. Sources and Purities of Pharmacy by Bailey and Gossage (Volumes I and II).

Reference books:-

1. The British Pharmacopoeia, Textbook of Pharmacology by Bentley.
2. A Treatise on Pharmacy by C. Gossage.

(Lecturing course about 10 hours)

Fundamental preparation of solutions, fluid extracts of and other pharmaceutical substances.

Examination and standardization of drugs according to the Pharmacopoeia.

Preparation of some active principles.

Isolation and chemical identification of crude drugs and fine chemicals.

Reference books:-

1. Practical Pharmaceutical Chemistry by Gossage and Appleyard.
2. The British Pharmacopoeia.
3. Drugs and Materials by H. C. Gossage.
4. British Pharmaceutical Code, 1934.

* Pharmaceutical Botany.

1. Plant description—The cell, cell structure, microorganisms and molecules—such as sugar, starch, tannin, inorganic salts, proteins and gums, resins and oils, glycosides and alkaloids, latex and pigments. Their behaviour in micro-chemical tests.

2. Cell walls. Their formation and composition. Various kinds of cellulose and the behaviour of such with micro-chemical reagents.

3. Tissues. Different kinds of tissues, their structure and identification, in vivo and when isolated.

4. Tissues—Thalophytes, Bryophytes and Pteridophytes. General characteristics of each group, plants and each group yielding drugs and the nature of parts used.

5. Gymnosperms—general characteristics, plants yielding drugs with parts of plants used and habitats.

6. Angiosperms—herbs yielding hypogynous drugs with names of plants, some mesogynous drugs and habits.

7. Botany—effects of different habitats on the yield and quality of drugs in the more important medicinal plants; cultivation of medicinal plants.

8. Practical—Microscopic examination and identification of cell structure and tissue of the different parts in a type plant and of the more important medicinal plants.

9. Making permanent mounts in Canada before after staining of plant material.

10. Description in technical terms and identification of the more important medicinal plants.

* P.S.G. Lecturing syllabus.

(a) **TREATMENT OF OILS AND FATS.**

(Examine papers about 20 letters.)

Physical-Chemical nature of the fats and fatty oils, structure, sources, refining and hardening of oils, hydrolysis, manufacture of soaps, emulsions, polymerisation of oils for paints and varnishes. Different types of soaps; their emulsions and chemical nature. Uses.

Emulsified oils—Emulsions, emulsion of essential oils, emulsified soaps and vitamins.

(Laboratory course; about 500 hours)

Recovery of fats by expression and solvent extraction. Physical and chemical tests for oils, fats and waxes. Hydrolysis of fats, analysis of fatty acids. Analysis of emulsified oils and the soap materials. Refining of used and soft soaps. Analysis of soap. Analysis of paints, varnishes and lacquers.

Techniques—(1) **Oils, Fats and Fatty Acids by E. R. Holmes.**(2) **The Industrial Chemistry of the Fats and Waxes by T. F. Daniels.**(3) **The Chemistry of Fats by Dore.****II**

In Chapter VII (Post-graduate and Technical Degree), page 476, of Code, Volume II (M.Sc.), under the following syllabus after the syllabus in M.Sc. Applied Physics is amended by insertion of the following—

"M.Sc. DEGREE (CHEMICAL TECHNOLOGY)

Separate Classes Transactions.—The examination in General will be a test of the candidate's capacity to carry out his knowledge into English of Technical Subjects relating to Industrial Chemistry. Candidates of distinction will be allowed during the examination.

General Examinations and Faculty Management.—(a) **General.**—Elements of Engineering—Elementary science regarding economic resources, Production values and pure-capital and profits. Exchange, Distribution, Money and credit—currency—Exchange rates. An outline of the economic organization of India with special reference to Industries.

Business Organization and Finance.—Business with, Partnerships and joint stock companies. Balance sheets. Loans. Managing agency system.

Industrial Organization.—Planning of work and control of production. Conditions and terms. Works organization and management. Departmental and functional organization. Inter-relationships—Selection of employees, Training, Planning, Graphical and statistical record. Purchasing, Marketing, Policy of discounting production for industrial progress in India.

Subjects of Industrial Organization.—Factory Legislation. Inspection of factories. Housing and welfare work. Accident prevention. Book record Industrial Division. "Safety First" movement. Trade Union and Employee Association. Selection of skill occupations. Methods and techniques. Selection of design. Basic features of design—Process for design—Selection. Timekeeping and wage payment. Pay-roll calculation.

Principles of cost accounting.—Analysis of problems of manufacturing. Capital charges, Depreciation. Interest. Amortization. Costing of land and buildings. Cost of raw materials and losses of various kinds. Overhead—gas, water, power and steam. Depreciation and maintenance. Rates, taxes and insurance. Value of inventory. General overhead charges. Detailed analysis of cost roll. Payroll, transport and selling charges. Margin of profit on the capital employed. Preparation of flow sheets (material, energy and cost).

Principles of Plant Location.—Plant layout and design.

Reference books—(1) **Chemical Engineering Economics by C. Tyler.**(2) **Economic Engineering by J. C. I. Pak.**(3) **Factory Economics by Joske and Earl, Volumes I and II.**

Essay Papers.—This refers to those work done by the M.Sc. students on any problem in the special subject set by the teacher concerned. An essay or paper will be submitted by the candidate to the examiners who will value it and award marks.

SPECIAL SUBJECTS.**1. Basic Technology****Lecture Course**

General.—Chemistry of sugar, starch, cellulose, collagen and their products. Application of enzymes, fermenting and distillation of cane. History of the development of sugar industry, special reference to India. Economics of sugarcane agriculture and sugar factory economics. Accounts and fiscal duty with reference to sugar, molasses and disposal of the by-products and waste materials of sugar factory.

Neurobiology.—Extraction of juice from cane. Diffusion of both. Recovery of sugar from other materials containing sugar, chemical tests of juice, by different processes, physical and chemical properties

Determination and testing of oils for purity and standard iodine value.
 Acids: natural and synthetic, estimation of free in hydrocarbons and other types.

4. Essential oils—Composition of essential oils. Properties and composition of terpenes and compounds. Synthetic terpenes. Use of essential oil in industry. Estimation of some typical essential oils. Blending.

5. Resin and oleoresins—Various types of resins, mechanism of saponification and its physico-chemical principles. Manufacture of synthetic types of resins. Dextrinization, etc.

Clinical picture of other oleoresins, saponins, saponification saponification of higher aliphatic alcohols. Conversion of fatty acids to alcohol.

6. Fats, polymers and resins—Five materials for the manufacture of paints and pigments. Manufacture of paints. Fats, oils and resins, synthetic materials, of fatty acids, esters and oils of fatty acids and resins. Chemical and physical properties of various types, paints and resins. Direction of research in industry by coating of films.

7. Synthetic and natural products of fats and waxes. Industry. Historical development of fats, soap and various industry.

8. Machinery used for the recovery, refining and handling of oils, manufacture of essential oils, waxes, gums and resins. Boilers and engines. Maintenance and operation of plants.

9. Recovery of petroleum, estimation of paraffin, gas and petroleum and products; refining and distillation of petroleum.

Advanced studies.

Estimation of fats and waxes, refining and handling. Complete study of typical sample and rich of vegetable oils, animal oils, essential oils and waxes. Non-saponifiable materials in oils. Analysis of essential and edible oils and detection of adulteration. Polymerization of oils with different catalysts. Types of soaps, including of different types of soaps. Preparation of paints and varnishes. Tests and analysis of paints, varnishes and resins. Physical and chemical properties of paints and varnishes. Manufacture of higher aliphatic alcohol. Properties of aliphatic alcohols. Some special problems related to the subject. Three months training in a factory.

(To come into effect from the commencing of 1940.)

III.

In Chapter XIV (Post-Graduate and Research Degree) of Guide, Volume II (1937-40), substitute the following for the scheme under

"Degree of Master of Science in the Chemistry (including Microscopy) of Foods, Drugs and Water" given on page 494-495.

"Special Subjects: Candidates (improve Measurement) as follows, under the name.

Lecture course.

Part I—

1. Chemistry, aspects, composition, commercial preparation and properties of foods.
2. Nutritional requirements of the human body. The Chemistry of digestion and excretion.
3. Nutrition and vitamins.
4. Elements of bacteriology and bacteriology of water-supplies and soils.
5. Alcohol, alcoholic beverages, vinegars and distillations.
6. Condensed and other fermenting substances and mixtures.

Part II—

1. Chemistry, origin, composition, commercial preparation, Pharmacological action and therapeutic value of drugs.
2. Poisons, their effects and counteraction.
3. Antiseptics and disinfectants.
4. The Chemistry of wines and food.
5. Indian and Foreign Government regulations regarding foods, adulteration and preservation in hospitals and the adulteration of foods.
6. Legal and pharmaceutical standards of purity.
7. Toxicology, morphology and nomenclature of drugs.

Note. The scheme is a guide to the study of the following list of subjects of the degree of Master of Science in the Chemistry of Foods and Water. The scheme is to be revised from time to time.

Practical studies.

Chemical analysis of—

- Waxes and alcohols.
- Carbohydrates and their products.
- Milk and its derivatives.
- Oils, fats, waxes and waxes.
- Soaps, emulsions and emulsifying substances.
- Cerates and their products.
- Oils: for and waxes.
- Chemical examination of drugs and chemicals used in Pharmaceutical preparations and preparations.
- Antiseptics and disinfectants.
- Preservatives.
- Alcoholometry.
- Recognition of synthetic drugs.
- Microscopy of drugs—drugs and films.

C. M. GANAPATHY, Esq., M.A., M.Sc.,
Director of Public Health, Malaya, and Chairman,
Board of Examiners.

Malaya, 26th January 1949.

NOTIFICATIONS BY EDUCATIONAL OFFICERS.

Queen Mary's College for Women, Malaya.

Queen Mary's College is a Government College. The aim of the college is education in the widest sense of the term. The Principal and staff make it the College's policy, and various facilities are offered to the moral and physical welfare of the students.

The progress of their own religious observance by students of all creeds is encouraged by the college.

It offers instruction in—

Intermediate Course with the following subjects under Part II:—

Mathematics, Physics and Chemistry.
Mathematics, Physics and Geography.
Mathematics, Physics and Indian Music.
Natural Science, Physics and Geography.
Natural Science, Physics and Indian Music.
Natural Science, Physics and Indian Music.
Natural Science, Physics and Indian Music.
Natural Science, Physics and Indian Music.
Natural Science, Physics and Indian Music.

Advanced History, Modern History and Indian Music.

B.A. (First Degree Course)—Parts I, II and under Part III.

Part III (Science) with Chemistry, Mathematics and Geography, with Indian Music.

Group IV (History and Geography).

Group VI (Indian Music).

Under Part II instruction is given in English, Tamil, Telugu, Malayalam, Sanskrit, Urdu and French.

Fees.

Fees are listed at the following rates for each of the first, second and third years, in advance:—

Intermediate.

Full course—Rs. 30.
For each part (if studied separately)—Rs. 12.

B.A. First Course.

Full course—Rs. 45.
For each part (if studied separately)—Rs. 12.

Group Fees.

Boarding fees for Rs. 1 per annum.

Boarding fees—Rs. 20 per annum.

B.A., Rs. 12 per annum.

Fees are levied at half the above rates for students who are poor and receive certificates of poverty, signed by an authority designated, a provision of a local board, or of a district educational council, a chairman of a municipal council, a sub-magistrate or an officer of the Revenue Department of not lower rank than a deputy collector. Such certificates may be presented subsequently on joining college.

Group Fees.

Boarding/Boarding Rs. 20 per annum (all colleges and local education).

Intermediate (I) year students—Rs. 2.

Intermediate (II) and III year students—Rs. 1.

Scholarships.

The college offers a certain number of scholarships.—

Under which scholarships at Rs. 20 per annum.

College scholarships at Rs. 2 per annum for the Intermediate and B.A. for the B.A. course.

Scholarships having the favour of whole reduction of fees and other special scholarships.

In all cases these scholarships can be awarded only to students who have good qualifications, who are positively in need of such assistance and who belong to the Indian Community.

Admission.

Students are not exclusively admitted except at the beginning of the first term of their Intermediate or Degree Course. Admission to the Intermediate course is restricted to students belonging to the Indian Community. In the B.A. course preference is given to Indian Community students and where admission is not full there are seats for non-Indians. Applications for admission should be sent to the Principal as soon as the results of the Public Examination are announced. Applications received after 15th June will be considered only if space can still be made available.

The number of students admitted for instruction in Science subjects is strictly limited and high qualifications will be required from such students. Admission to the French classes is restricted and some preliminary knowledge of the language is required.

No student will be allowed to take French who can take a vernacular.

Students are required to maintain good character.

If a student is found to be in breach of the rules of the college, the authorities may suspend or expel him from the college. The suspension should be for a period of not less than one month.

Government Arts College—Queen Mary's College—College fees.—The fee will not be refunded if the student is not admitted.

On a certified copy of marks sent to the Principal of the college or to the Principal of the college.

On the Secondary School Leaving Certificate book should be sent to the head clerk of the college and not to the Principal.

On students who have passed the Intermediate at any September examination should obtain their marks from the Registrar, University of Malaya, or equivalent of Rs. 1 and send them along with their applications.

The application for admission to the Degree Examination should be in the following form:—

- Name of candidate.
- Place of birth.
- Date of birth.
- Place of birth.
- Nationality.
- Date of arrival.
- Religion, married or widow.
- Previous examination's name and computers.
- Religion just mentioned.
- Date of leaving the school.
- Address previously attended, if any, with date of attendance.

Honorary Physician,
Honorary Assistant Physician, or
Clinical Assistant holding the degree of M.D.B.S.
or its equivalent.

Applicants should clearly specify the community to which they belong in forwarding inquiries whether it is one among the privileged classes and if so whether it is among the privileged classes or among others other than the privileged classes.

Applicants should be recommended by the majority of a recognized institution and must be made up in a typed form as specified below. An application form is necessary in the case of candidates applying for the Medical Training class. In the case of the majority of the members, it should be done. It is stated whether the person of employment is conditional or a definite one or of employment. Every candidate must forward with his application card a list of his medical and general education with his and a list of his medical education with its duration and its subject matter.

Applicants who have highest examination in the S.M.C. Public (1st) should give whether they are covered or not. Candidates for medical studies of the S.M.C. should submit and give one form of the S.M.C. Graduate course should be specified. The applicant will have to be produced if he is selected. Every student will be in position for his work.

There is a list of students in the College which provides board and accommodation for all students.

History of schools are intended that training form a very important part of the Medical Training course. It is suggested that during studies with the qualification intended for admission into the Medical Training course may be recommended in which the students.

Information as regards their selection will be sent only to those who are selected.

CANDIDATES FOR ADMISSION TO THE MEDICAL TRAINING COURSE IN THE S.M.C. PUBLIC (1st) should give whether they are covered or not.

Applicants are advised that candidates who wish to join in July next (1st) should give the training of the S.M.C. Graduate course in the College.

The candidate applying for this class should hold a minimum of 100 marks in the examination. The training will be given in those having certification in any other or subject.

The period of training will be for one month from July 1939 to March 1940.

Selected students will be granted a stipend of Rs. 12 per month and they will be required to reside in a hostel. In those cases where students are not selected to join the Medical Training course, they will be required to pay tuition fee of Rs. 20 for each of the two terms in the 4th to 6th term. Candidates who hold permanent appointments under local boards or municipalities are not eligible for stipends from the Government.

Candidates who are listed in one year are not eligible for admission.

Those who are employed as physicians (selected) higher nature or equivalent are not eligible for admission in course of training.

Candidates having derivative names should send along with their application a special certificate regarding their own name given by one of the following classes who is an eye application.

Selected Government Officer of the Medical Department.

Honorary Surgeon,
Honorary Assistant Surgeon,
Honorary Physician,
Honorary Assistant Physician, or
Clinical Assistant holding the degree of M.D.B.S. or its equivalent.

Applicants should clearly specify the community to which they belong in forwarding inquiries whether it is one among the privileged classes and if so whether it is among the privileged classes or among others other than the privileged classes.

Applicants should be recommended by the majority of a recognized institution and should send the material as at when the S.M.C. Public (1st) and must be made up in a typed form as specified below. An application form is necessary in the case of candidates applying for the Medical Training class. In the case of the majority of the members, it should be done. It is stated whether the person of employment is conditional or a definite one or of employment.

Every candidate should forward copies of his educational and technical certificates, the certificate will have to be produced when selected.

There is a list of students in the College which provides board and accommodation for all students.

Information as regards their selection will be sent only to those who are selected.

A teacher seeking employment

Name of the last school served	Position held	Date of entrance upon first employment	Period of vacation and absence

- (4) If applicant is not serving in a school on the date of application, the date of termination of his last teaching work should be given, and substantiated by a certificate signed by the Headmaster or Manager of that school.
- (5) Period of vacation from the date of termination of last teaching work or nature of services from the time of failing down of the applicant, has had no teaching experience at all.
- 20 If working in a roomed residence on the hotel, definite reasons for so doing
- 21 (a) Name of game played
- (b) If applicant was a regular member of his school's recognized team, then the name of the college, the game played and the year or years of representation should be clearly stated.
- 22 Name of the treasury into which the application fee is received (only for L.T.s) (and all other amounts).
- 23 The name of the district in which the said treasury is located (only for L.T.s)
- (a) Name of town, block and district (with post)
- (b) Name of town, block and district now employed
- 24 Full name and address in capital letters
- 25 Address
- 26 Date
- 27 Statement by manager of school
- (a) Description of present appointment
- (b) In the application form is it permanent or temporary?
- (c) Name of the institution in which the applicant is to be appointed at the end of the teaching tenure
- (d) If to be employed in a Secondary school, will his work be with class or above higher than Form 3 or lower than Form 4?
- (e) Subjects which the applicant will be required to teach
- (f) Whether the present incumbent of the post reserved for the applicant is treated or not?
- (g) Is the offer of appointment made conditional or is it a definite guarantee?
- (h) Signature
- (i) Date

N. K. KIRIHINAKA.

Principal.

Teacher's College, Maidput,
16th January 1943.

Lady Willington Training College, Madras.

Elementary Teachers Section (Hajjara Class).

Applications are invited from candidates who wish admission in July 1943 into the Elementary Higher Training Section of the Lady Willington Training College, Trichy.

3. The course of training will be for two years. It will include all subjects prescribed for the Elementary Higher Grade Teachers' Certificate, and a special course in bookkeeping (accountancy) for all students.

3. Qualifications.—Candidates must have passed the (1) Form or VIII Exam and they should be not less than 16 years of age or over 35 years of age. (2) In the case of a candidate who has been employed as a teacher in a recognized school (or not less than three years, the age limit is 30.)

4. The rate of post-paid stipend will be Rs. 5 per month. Every subject (dependent and independent) on being admitted will be required to maintain a bond in which she undertakes to pay the sum of Rs. 500 and Rs. 500 respectively, should she fail to serve as a teacher in a recognized school in the Madras Presidency for two years after training.

A candidate's total expenses for two years is approximately Rs. 200 including board charges, examination fees, books, etc. and only Rs. 100 of this is covered by Government. Students belonging to other Presidencies or States are required to pay 1000 Rs. less at the rate of Rs. 50 per year.

5. Applications for admission should be made as the type form to be obtained from the college and should reach the Principal by 31st March 1943.

It should be accompanied by (a) a certificate of physical fitness in the form prescribed, (b) a certificate of VIII Standard or (1) Form examination, and (c) a certificate of conduct and character, and testimonials for training as a teacher from one of the following persons: An Inspector, Officer of the Educational Department, the president of a local board or the chairman of a municipal council, the principal, manager or headmaster of a recognized school.

The statement relating to future employment should distinctly specify whether the provision of employment is conditional or a definite guarantee of employment.

References for the form should be accompanied by a stamped and addressed envelope and if necessary of the application is rejected it should be accompanied by a stamped and addressed envelope.

Originals of the certificates must be produced in the event of selection. Candidates may also if they fail to attach the provisional certificates and other certificates relied for, their applications will not be considered.

6. A selection examination for all candidates will be held on Saturday, the 6th April 1943 at 11 a.m.

7. Candidates who are ill on the day, deaf, or having uncorrected limbs, etc., are not eligible for admission and should not apply.

N. Jorg points back to the most dramatic 1970s-era mining effort—the 1976-77 strike in the Illinois uranium district that closed the state for 100 of its 150 mines. Summary: In Madeline Cole's dramatic, 1977 novel, *Uranium*, the strike is the one world event that is attributed to the nuclear power industry's dependence. The one way that her nuclear power critics have been proven wrong is that the strike was not caused by a power-industry threat that, she argues, will have been averted by the time the power industry has the means of a fully assigned responsibility for the nuclear industry's safety. The novel's conclusion is that the industry is not yet controlled by a government, or any other authority, and that the industry's safety is not yet under control. The novel's conclusion is that the industry is not yet controlled by a government, or any other authority, and that the industry's safety is not yet under control. The novel's conclusion is that the industry is not yet controlled by a government, or any other authority, and that the industry's safety is not yet under control.

Play—by Robert Ellis the French monk. In 1961, from the talks between him and the abbot of the same convent, you can hear the young priest, somewhat out of the common order, the spirit of the world, the love of the monastery, the life of the convent, the life of the convent, the life of the convent.

(2). The reserve price placed on each shop will not be published but the average monthly rental during the previous five years will be notified by Ordnance, wherever possible, for the information of bidders. The selling office will fix the final price of each shop.

IV. The above will be put up to auction in the order in which they are needed unless the selling officer sees reason to change this order.

V. The highest bid will be provisionally accepted by the Collector, subject to confirmation by the Collector, within the time specified in the notice. The date of the sale will be necessary even if the selling officer is the Collector himself. The Collector will be at liberty to accept or reject any bid or to buy himself. If the selling officer believes the price of the sale is not sufficient, he may accept any bid or to buy himself. If the selling officer does not accept any bid, he may bring the sale up to auction again (expressly or by implication) at such time and place as he may think fit. In case of dispute the selling officer's decision will be final.

VI. No money given when bid is provisionally accepted shall—

(a) at once, if so required by the selling officer, or otherwise at the time of the day's sale, deposit, in full, with the Collector under the terms of the notice, or (b) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(c) at once apply in writing for a license for the sale of the land in full and under a writ of the Collector, or (d) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(e) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(f) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (g) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(h) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (i) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(j) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (k) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(l) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (m) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(n) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (o) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(p) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (q) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(r) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (s) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(t) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (u) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(v) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (w) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(x) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (y) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(z) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (aa) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

(ab) within fifteen days from the date of sale, deposit with the Collector under the terms of the notice, or (ac) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

VIII. At the choice of the day's sale the selling officer will determine whether to the approval of the Collector, the sale shall take place at which any sale should be made to give up to auction, or (b) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

IX. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

X. If the Collector receives such bid to be provisionally accepted by the selling officer, he shall be at liberty to accept or reject any bid or to buy himself. If the selling officer believes the price of the sale is not sufficient, he may accept any bid or to buy himself. If the selling officer does not accept any bid, he may bring the sale up to auction again (expressly or by implication) at such time and place as he may think fit. In case of dispute the selling officer's decision will be final.

XI. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XII. Any sale made to be provisionally accepted by the selling officer shall be made to give up to auction, or (b) at such time and place as he may think fit, unless the initial deposit equals or exceeds two months' rent.

XIII. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XIV. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XV. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XVI. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XVII. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XVIII. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XIX. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

XX. The notice of the Collector approving a bid provisionally accepted by the selling officer shall be given to the Collector at the time of the day's sale.

These officers are empowered to enter and examine the premises, to load the weights, measures, scales, apparatus and testing straps in the possession of the Government, and to call for and study the accounts kept in the Shop or Shops. Failure to obey will be treated as contempt of law and will draw the force of these orders.

81. The right is reserved to the Director to grant a seasonal license for the sale of liquor, wine and malted beverages to the convenience of fair, festival, or to be placed in the vicinity of which there are no regular licensed shops. Such license should be issued only when absolutely necessary and shall ordinarily be granted to the shopkeepers who usually supply the locality.
